

**God's mercy transforms human hearts it enables us through the experience of a faithful love to become merciful in turn.**

It is my privilege to share with you the enriching experiences of Nityaseva hospital, Shevgaon. We are grateful to God for being gracious to us all. We also thank you for your support and cooperation that we receive from you. You constantly encourage us in our vision and mission of serving our brothers and sisters. Our mission is challenging but your assurance gives us courage to accept the challenges and move forward in life.

One of the first challenges we faced was lack of water. Though Shevgaon is drought prone area, this year we had very little water. The government took time even to announce famine. We are still in winter but already we are facing water crisis. We hope that we will be able to have some water in Summer. To overcome water problem we have planned to dig a bore well. We hope that we will be able to fetch some water. Please do pray that the Lord may provide us sufficient water.

We are proud and glad to share with you that successfully second year the Intra plastic surgery team from Germany has come to Nityaseva Hospital, Shevgaon to conduct the camp. Such important camp is held at free of cost for the patients. The team of doctors was very supportive for our institute as well as patients. People from nearby locality as well as far places like Ahmednagar, Mumbai, Nashik etc. Last year many patients experienced good quality service by the doctors as well as hospital. With their positive response, this year too we had camp from 8<sup>th</sup> February to 20<sup>th</sup> February at our hospital. The response was very

positive, the patients too were grateful to the doctors as well as institute that we have decided to conduct the camp every year. The team of German Doctors has given their consent to the proposal. We are happy to see the joy of the patients. Their joy is so overwhelming that they get courage to live life with new vigor and hope. Their joy and satisfaction gives us fulfillment in our mission.

### **OPTIMUM USE OF THE RESOURCES:**

Managing the space and utilizing it for the good cause is very important for our hospital. We had one cellar in the outpatient department side. We modified that room and made into hospital supply store room. The things are kept neat and tidy. It is well organized and systematic in using the equipment. Now we have good use of the room and at the same time it has created a good ambience to our storage department. You can see some of the pictures of it.

## **PHYSIO DEPARTMENT:**

Physiotherapy department was not easy visible and patients used to struggle to locate it. Thus, we have shifted it to the old store room. The old storeroom is located near the doctors visiting room. Therefore we have to modify the old storeroom into Physiotherapy department. The new location has a good atmosphere as well as more space. Our patients feel comfortable and well connected to doctors too. It is easy access to doctors as well as patients.

## **EXTENSION OF OPERATION THEATER:**

The old Physiotherapy department was part of Operation Theater. As we have shifted Physiotherapy department to store room side we could extend our Operation Theater. It is equipped with all the new machinery and now it is used for the plastic surgery team for all the surgery purpose. Later on we shall continue to use for the further operation purpose.

### **PATIENTS HELP:**

Mr. Mangilal Bhanudas Aade, 50 years old man from Khadeton, Tal Paithan Dist. Aurangabad, was diagnosed with Bladder stone for Cystolithomy developed bladder fistula. He was admitted in our hospital for 50 days. He is simple sugarcane cutter. He has wife, mother and 3 sons. His wife and elder son 17yrs old are going for sugarcane cutting and 2<sup>nd</sup> son 16yrs is epileptic patients, has one eye sight. And the 3<sup>rd</sup> son is 15yrs old studying in 10<sup>th</sup> std. Mr. Mangilal is the only bread earner in the family with the help of his wife and elder son.

He didn't get operate anywhere since he had no money so he land up in our hospital. We did surgery and gave him medicine as well as food for him and his family during his stay in the hospital. He was not able to pay any amount so the management gave him full concession. We are grateful to you for all your support and cooperation. We are in the season of lent and season of lent is reminding us to be merciful just our God the Father is merciful. Season of lent invites us for fasting, praying and almsgiving, we shall continue to pray for you and you're near and dear once. Thank you for giving us this privilege to serve the lord in His Mission. God's blessing on your life and mission.

Yours sincerely

Sr. Hilda
